PROFILE

BSc Computer Science student (Cognitive Systems, CGPA 8.1) and native Telugu speaker who completed the TiHAN–IIT Hyderabad AI/ML program, seeking AI/ML, LLM evaluation and software internships. Built and published a Telugu LLM benchmark with a public leaderboard, and built an Android voice assistant with Gemini-powered command understanding and four live web apps.

EDUCATION

Loyola Academy, Hyderabad **2025–2028**
BSc Computer Science — Specialization: Cognitive Systems **CGPA: 8.1/10**

TECHNICAL SKILLS

Programming	Python, Java, C, SQL, JavaScript
Mobile	Android (Java): speech recognition, text-to-speech, overlays, Quick Settings tiles, alarms
AI / ML	LLM evaluation (benchmark design, scoring, bootstrap confidence intervals, LLM-as-judge), Prompt Engineering, Gemini API
Web	React, WebSockets, Three.js (React Three Fiber), GLSL shaders, Cloudflare Workers & Pages
Systems	Raft consensus, discrete-event simulation, Pyodide (WebAssembly)
Data & Tools	MySQL, IndexedDB, JSONL datasets, pytest, Git, GitHub Actions, VS Code
Languages	Telugu (native), English (fluent), Hindi

PROJECTS

Telugu LLM Eval — Benchmark & Leaderboard for Telugu (Live · Code)

- Benchmark testing how well LLMs handle real Telugu: 30 native-speaker-reviewed items across cultural knowledge (Telangana & Andhra), Telugu-English code-mixed text (Telugu script and Romanized) and reading comprehension.
- Evaluated models against a random baseline: Gemma 4 31B 93%, Gemini 3.5 Flash-Lite 87%, random 17%; cultural knowledge was Flash-Lite's weakest category (70%).
- Python harness with fixed prompts, Unicode-aware answer matching, a labelled LLM-judge mode and 95% bootstrap CIs; offline pytest suite, GitHub Actions CI, leaderboard on Cloudflare Pages. Code MIT, data CC BY 4.0.

Voice Agent — Siri-style Voice Assistant for Android (Code)

- Android app in Java: an overlay orb that listens with on-device speech recognition, answers with text-to-speech and handles 12 command areas (calls, texts, alarms, reminders, calendar, music, phone controls, maps, facts, math, conversions, notes).
- Hybrid routing: an offline rule-based parser handles simple commands instantly; an optional Gemini mode maps free-form speech to a structured action the phone carries out, and falls back to offline mode when there's no network or the quota runs out.
- Fuzzy contact and app matching, natural-language time parsing ("tomorrow at 7:30 pm"), reboot-safe reminders; GitHub Actions builds the APK and publishes it to Releases.

Raft Failure Lab — Distributed-Systems Fault Simulator (Live · Code)

- Deterministic simulator of a 5-node Raft cluster: inject delays, drops, duplicates, crashes and partitions; runs repeat by seed, and an invariant checker points to the exact event of any safety violation.
- Pure Python in the browser via Pyodide (WebAssembly); test-first unittest suite; GitHub Actions CI deploys to Cloudflare Pages.

Sync or Solo — Real-time Multiplayer Party Game (Live · Code)

- Browser party game for 2–8 players on their phones (answer the same prompt, then bet on matching the crowd or standing alone); React + WebSockets with 4-letter room codes on Cloudflare Workers, no accounts or installs.

Solar System — Interactive 3D Solar System Explorer (Live · Code)

- Every planet at its real position for today (JPL orbital elements), Earth turning with the real clock; fly to the Sun, 8 planets and 13 moons. React, Three.js (R3F), GLSL, Zustand.

ACHIEVEMENTS & HACKATHONS

- **1st Prize — Brain Rush & Technoverse, TECHXCELERATE, Loyola Academy (2026).**
- **Hackathons (2026):** SPEC'S Industry Hack, a 24-hour national-level hackathon (frontend and bug fixing in a 2-member team), and a 2-day state-level hackathon at Loyola Academy.
- **Handshake AI Skill Studio (2026):** completed missions including BugLoop, an AI debugging assistant built with Gemini in Google AI Studio (live), and a Halloween-themed logo (view).

RESEARCH & PROGRAMS

- **Co-author — GroundRAG research paper** (unpublished).
- **Specialized Program in AI & ML with Drone Tech** — TiHAN, IIT Hyderabad × Masai. Completed, with certificate.
